Bokkena Harsha Teja

+91 8328185775 | harshadeveloper06@gmail.com | Vizianagaram , Andhra Pradesh | LinkedIn | GitHub

AI & ML Engineer with hands-on experience in machine learning, NLP, and end-to-end ML pipelines through internships and real-world projects. Strong in Python, data preprocessing, feature engineering, and model optimization for structured datasets.

Domain/Functional Areas

- Artificial Intelligence & Machine Learning
- Generative AI & NLP
- Data Analytics & Visualization
- Web & Software Development

Key Skills

Programming Languages: Python, Java, C, C++, SQL/MySQL

AI & ML Tools: Scikit-Learn, Pandas, NumPy, OpenCV, Llama 2, Ollama

Web/App Development: HTML, CSS, React.js, FastAPI, Android Studio

Data Skills: Data Cleaning, EDA, Data Modeling, Visualization

ML Concepts: Classification, Regression, NLP, Model Evaluation, Computer Vision

Professional Experience

SmartBridge Educational Services Pvt. Ltd. **Virtual**

AI & ML Intern (Internship) Jun 2025 - Aug 2025

- Reduced data inconsistencies by 30% through structured preprocessing pipelines.
- Improved model accuracy by 15–20% using feature engineering techniques.
- Identified top predictive features, reducing model noise and improving generalization.

Skills: Python, Pandas, NumPy, Scikit-Learn, Data Preprocessing, Exploratory Data Analysis (EDA), Machine Learning Algorithms, Problem-Solving

1Stop.ai **Remote**

Machine Learning Intern (Internship) May 2025 - Jun 2025

- Built classification models for Diabetes Prediction achieving 85% test accuracy.
- Boosted F1-score by ~10% via hyperparameter tuning.
- Verified model reliability using precision, recall, and confusion matrices on test data.

Skills: Python, Pandas, NumPy, Scikit-Learn, Data Preprocessing, Feature Engineering

InTrainz **Remote**

Web Development Intern (Internship) Nov 2024 - Jan 2025

- Developed responsive interfaces using HTML, CSS, and JavaScript.
- Cut layout defects by 25% through cross-device testing.
- Enabled API-driven data flow by integrating FastAPI endpoints with frontend components.

Skills: HTML, CSS, JavaScript, MySQL, Frontend & Backend Basics, React.js, FastAPI

EduSkills (Supported by Google for Developers) **Virtual / Remote**

Android Intern (Internship) Jul 2024 - Sep 2024

- Structured XML-based Android screens, reducing UI rework by 25% across iterations.
- Integrated REST APIs to lower manual UI updates by 30%.
- Lowered crash incidents by 20% through runtime fixes.

Skills: Android Development, Java / Kotlin, XML Layout Design, UI/UX for Mobile Apps, API Integration Basics

Projects

Health Insurance Premium Prediction - Machine Learning, Regression Modeling, Health & Insurance Analytics Project Link

[Python / Pandas, NumPy / Scikit-Learn / Data Preprocessing & Feature Engineering / Regression Algorithms] Dec 2025 - Dec 2025

- Trained regression models on 10+ demographic and medical features to predict insurance premiums.
- Lowered RMSE by 18% through outlier handling.
- Compared Linear, Ridge, and XGBoost models for best fit.

Credit Risk Model - Finance Analytics, Machine Learning, Risk Modeling (NBFC/Banking) Project Link

[Python / Pandas / Scikit-Learn / Classification Modeling / Feature Engineering] Dec 2025 - Dec 2025

- Built borrower risk classifiers on financial datasets.
- Reduced false positives by 6%, improving approval quality.
- Evaluated credit risk models using ROC-AUC and confusion matrices.

Sentiment Analysis - Natural Language Processing (NLP), Social Media Analytics, Machine Learning Project Link

[Python / Pandas, NumPy / NLTK / TextBlob / Scikit-Learn / Sentiment Classification / Data Preprocessing

- Processed social media text using tokenization and vectorization.
- Achieved 84% accuracy across sentiment classes.

ChatGPT Clone using Ollama + Llama 2 - Generative AI, NLP, Conversational Agents

[Python / Llama 2 / Ollama / Prompt Engineering / FastAPI (API Integration & Backend) / NLP (Conversational Modeling)] Jan 2025 - Jan 2025

- Deployed a Llama-2-based conversational chatbot with FastAPI backend.
- Reduced response latency by 20% via prompt optimization.

Certifications

- **The Complete 2024 Web Development BootCamp - Udemy**
  Issued on: Dec 2024 **Certification Link**
- **Python for Deep Learning : Build Neural Network in Python - Udemy**
  Issued on: Mar 2025 **Certification Link**
- **Python Django Framework And HTML5 Stack Complete Course - Udemy**
  Issued on: Dec 2024 **Certification Link**
- **Python Essentials 2 - CISCO**
  Issued on: Feb 2025 **Certification Link**
- **AWS ML Foundations - AWS**
  Issued on: Nov 2025 **Certification Link**
- **Master Machine Learning for Data Science - Codebasics**
  Issued on: Dec 2025 **Certification Link**
- **Deep Learning - Codebasics**
  Issued on: Jan 2026 **Certification Link**
- **Natural Langauge Processing - Codebasics**
  Issued on: Jan 2026 **Certification Link**

Education

MVGR College of Engineering **Vizianagaram, Andhra Pradesh**

B.Tech - AIML Sep 2023 - Sep 2027
